The time period for reply, if any, is set in the attached communication.

## Office Action Summary

Application No.

10/530,685

Applicant(s)

SAKAI ET AL.

Examiner

D. Margaret Seaman

Art Unit

1625

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### Disposition of Claims

- 4) ☒ Claim(s) 17,18 and 21-36 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_ is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_ is/are allowed.
- 6) ☐ Claim(s) \_\_\_\_ is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_ is/are objected to.
- 8) ☒ Claim(s) 17,18 and 21-36 are subject to restriction and/or election requirement.

### Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on \_\_\_\_ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

### Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some \* c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
  - ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_.
  - ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

\* See the attached detailed Office action for a list of the certified copies not received.

### DETAILED ACTION

This application was filed 4/8/2005 and is a 371 of PCT/JP03/12981 (10/9/2003) which claims priority to JP 2002-298079 (10/10/2002), JP 2002-318830 (10/31/2002) and JP 2003-117604 (4/22/03). Claims 17-18 and 21-36 are before the Examiner.

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 31, drawn to methods having one PGI2 agonist only wherein the PGI2 agonist is one of the two compounds of claim 31.

Group 2, claim(s) 32 (in part), drawn to methods having one PGI2 agonist only wherein the PGI2 agonist has a cyclopenta[b]benzofuran.

Group 3, claim(s) 32 (in part), drawn to methods having one PGI2 agonist only wherein the PGI2 agonist has a hexahydrocyclopenta[b]pyrrol-2-yl.

Group 4, claim(s) 32 (in part), drawn to methods having one PGI2 agonist only wherein the PGI2 agonist has a hydrohexahydropentalene-2(1H)-ylidnen.

Group 5, claims 33-34, drawn to methods having one EP2 agonist represented by formula (I-a).

Group 6, claims 35-36, drawn to methods having one EP4 agonist represented by formula (I-b).

Group 7, claims 17-18 and 22-29 (in part), drawn to methods having one PGI2 agonist not encompassed by groups 1-4, with an election of a single disclosed species.

Group 8, claims 17-18 and 22-29 (in part), drawn to methods having one EP2 agonist not encompassed by group 5, with an election of a single disclosed species.

Group 9, claims 17-18 and 22-29 (in part), drawn to methods having one EP4 agonist not encompassed by group 6, with an election of a single disclosed species.

Group 10, claims 17-18 and 22-29 (in part), drawn to methods having one PGI2 agonist and one EP2 agonist, with an election of a single disclosed composition.

Group 11, claims 17-18 and 22-29 (in part), drawn to methods having one PGI2 agonist and one EP4 agonist, with an election of a single disclosed composition.

Group 12, claims 17-18 and 22-29 (in part), drawn to methods having one EP4 agonist and one EP2 agonist, with an election of a single disclosed composition.

Group 13, claims 17-18 and 22-29 (in part), drawn to methods having one PGI2 agonist, one EP4 agonist and one EP2 agonist, with an election of a single disclosed composition.

Group 14, claim 21 (in part), drawn to compositions having one PGI2 agonist in combination with another active ingredient, with an election of a single disclosed species.

Group 15, claim 21 (in part), drawn to compositions having one EP2 agonist in combination with another active ingredient, with an election of a single disclosed species.

Group 16, claim 21 (in part), drawn to compositions having one EP4 agonist in combination with another active ingredient, with an election of a single disclosed species.

Group 17, claim 21 (in part), drawn to compositions having one PGI2 agonist and one EP2 agonist in combination with another active ingredient, with an election of a single disclosed composition.

Group 18, claim 21 (in part), drawn to compositions having one PGI2 agonist and one EP4 agonist in combination with another active ingredient, with an election of a single disclosed composition.

Group 19, claim 21 (in part), drawn to compositions having one EP4 agonist and one EP2 agonist in combination with another active ingredient, with an election of a single disclosed composition.

Group 20, claim 21 (in part), drawn to compositions having one PGI2 agonist, one EP4 agonist and one EP2 agonist in combination with another active ingredient, with an election of a single disclosed composition.

2. The inventions listed as Groups 1-20 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The treatment of production of endogenous repair factor is known as well as PGI2-agonists, EP2 agonists and EP4 agonists as stated in the instant specification. Due to this, there is no special technical feature that provides unity of invention.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions

unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to D. Margaret Seaman whose telephone number is 571-272-0694. The examiner can normally be reached on 730am-4pm, Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Janet Andres can be reached on 571-272-0867. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
